**Re: National Pollutant Discharge Elimination System (NPDES) General Permit for Discharges of Stormwater Associated with Construction Activities
McKean Woodland I LLC
Liberty Township, McKean County, Pennsylvania**

To Whom It May Concern:

McKean Woodland I LLC (McKean Woodland) is proposing development of a distribution scale solar project on approximately 11.1 acres on a site located in Liberty Township, McKean County, Pennsylvania. The development of the McKean Woodland Solar Project (Project or Site) includes one 2 megawatt (MW) system: McKean Woodland I LLC. McKean Woodland proposes the construction of solar arrays and associated infrastructure such as access roads, equipment pads, and electrical collection lines.

Please find the required information and documents submitted electronically for Coverage under the National Pollutant Discharge Elimination System (NPDES) General Permit for Discharges of Stormwater Associated with Construction Activities. In the case of some provided documentation, including but not limited to the soil report and Wetland Delineation and Stream Identification Report, the entire site area is examined and not necessarily broken down into the separate systems.

Should you have any questions, please contact me at (412) 913-8902, or via email at matt.pierce@swca.com. Thank you for your attention and assistance.

Sincerely,

SWCA Environmental Consultants
